

## Zimmer / Wildflowers

Let the wildflowers grow  
In the jungle where I went for love  
Here, where my heart will grow  
In the jungle where I was all alone

Where I've been calling louder  
Watcha gonna reap yourself (can't find love)  
And it's been growing louder ('cause I want you to know)  
Watcha gonna reap yourself (can't find love)

The wildflowers, this field and grass  
The wildflowers in the jungle  
The wildflowers, I'm feeling flaws  
The wildflowers, growing in the jungle

Growing the wildflowers

Here, where the river flow  
In the wild water where we went for love  
Here, where my heart will grow  
In the jungle where I went for love

Where I've been calling louder (da da da da da da)  
Watcha gonna reap yourself

Ooh ooh ooh (ooh ooh ooh ooh)  
Ooh ooh ooh (ooh ooh ooh ooh)

The wildflowers, this field and grass  
The wildflowers in the jungle  
The wildflowers, I'm feeling flaws  
The wildflowers, growing in the jungle

In the jungle  
The wildflowers, I'm feeling flaws  
The wildflowers, growing in the jungle

In the jungle

Ooh ooh ooh ooh
